SYNOPSIS

Lecture by Frank Gehry on his Recent Projects
Presented by DesignSingapore Council
Organised by Singapore Institute of Architects

PROFILE

Frank Gehry

Raised in Toronto, Canada, Frank Gehry moved with his family to Los Angeles in 1947. Mr. Gehry received his Bachelor of Architecture degree from the University of Southern California in 1954, and he studied City Planning at the Harvard University Graduate School of Design.

In subsequent years, Mr. Gehry has built an architectural career that has spanned four decades and produced public and private buildings in America, Europe and Asia. In an article published in *The New York Times* in November, 1989, noted architecture critic Paul Goldberger wrote that Mr. Gehry's "buildings are powerful essays in primal geometric form and... materials, and from an aesthetic standpoint they are among the most profound and brilliant works of architecture of our time." Mr. Gehry's works have earned him several of the most significant awards in the architectural field, including the Arnold W. Brunner Memorial Prize in Architecture, the Pritzker Prize, the Wolf Prize in Art (Architecture), the Praemium Imperiale Award, the Dorothy and Lillian Gish Award, the National Medal of Arts, the Friedrich Kiesler Prize, the American Institute of Architects Gold Medal, and the Royal Institute of British Architects Gold Medal.
