SYNOPSIS

Fee Calculator is a web-based application developed with the objective to provide an estimated architectural service fee based on a set of inputs from user. The calculated or estimated figure act as a guide for members in preparing proposal to client

The benefits of fee calculator;

➢ provides 'default' values that can be used as a reference point when starting to consider fees
➢ provides framework of discipline for Architects to comprehensively consider and take into account their service obligations under a service contract including; the make-up and durations of stages of project, the scope of service required
➢ a solid position in service contract negotiation
➢ an assurance to the Employer on an Architect's commitment to give appropriate time and effort to the project

SPEAKERS PROFILE

Mr. Darren Benger
Bachelor of Architecture degree with First Class Honours from the University of Adelaide, Australia and a member of Society of Construction Law, Singapore, under the Contracts Review Working Group and member of Singapore Institute of Arbitrators.

Mr. Darren is currently the Director of ATA Architects Pte Ltd and has been actively participated in major events in Singapore Institute of Architects and various SIA committees. These include chairing the Services Procurement Committee from 2007 to current, chairing the Site Supervision Committee in 2008, and involvement in the Building Contracts Committee since 2007.

He is presently the speaker/tutor of BOA/SIA Architectural Practice Course and building contracts module of the Architectural Practice course for the National University of Singapore - School of Architecture in 2009.

Mr. Ben Thum
Graduated as an architect from University Technology Malaysia in 1982 and started work at the Public Works Department in the Hospital Design Division.

Mr. Ben Thum is currently the Innovation Director of SIACAD Private Limited, a commercial arm of the Singapore Institute of Architects. He has more than 20 years experience in software development, experimenting with various aspects of IT ranging from assembly code programming to non-linear digital video editing.

His current job scope at SIACAD Pte Ltd covers all the different aspects of software development, promotion, training and support. The software solutions which he has developed are currently being used by small to large firms for e-submission, design and on-line information and resource management.
