SYNOPSIS

Going GREEN is not only a trend; it's the right thing to do, now and in the future. OPTILED offers its professional LED lighting solutions in synch with the needs of designers and addresses the concerns for the environment.

In this interactive seminar, OPTILED will show you how LED lighting can be efficiently applied to your architectural/interior designs, for general illuminations across commercial and residential applications.

Is it the right time to use LED lighting?

- How to select the appropriate and quality LED lighting for your projects?
- What are the key points to consider in using LED lighting?
- What are potential limitations with using LED lighting in projects?
- **Applications Reference**
- Product demo

SPEAKER PROFILE

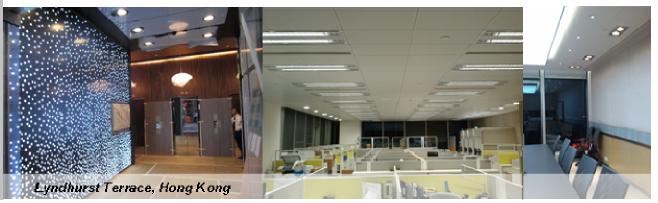

Raymond Lee - Lighting Designer, Optiled

Ray has 14 years lighting design experience and a Master of Light and Lighting from UCL School of Architecture in UK. He had worked in UK and HK lighting consultancies on projects in Europe, Middle East and Asia.

COMPANY PROFILE

Founded in 2000 and headquartered in Hong Kong, OPTILED quickly established itself as the leading brand in LED solutions by developing innovative products focus on white lights, providing skilled and knowledgeable sales expertise and an establishing extensive distribution network across the North America, Europe, China, Japan, Australia, Hong Kong and South East Asia regions. Aiming to bring a new generation of environmentally-friendly lighting products into markets that promote green movements, OPTILED is shaping the future of light by leading the world into a new era of lighting based on LED technology.
