## **Synopsis**

With a surge in demand for energy efficiency, majority of the companies are looking at opportunities to convert conventional lightings to LED lightings products. Following this third interactive seminar, OPTILED will be sharing the factors on investing in good quality LED lightings to benefit in substantial energy savings.

- How to select the appropriate and quality LED lighting for your projects?
- What are the key points to consider in using LED lighting?
- What are potential limitations with using LED lighting in projects?
- Applications Reference
- Product demo
