SYNOPSIS

BIM - A comprehensive sustainable analysis tool that delivers a wide range of simulation and analysis functionality through desktop and web-service platforms. It was tailored specifically for architects, designers, engineers and building owners with Autodesk® Ecotect® Analysis green building software

Powerful web-based whole-building energy, water, and carbon analysis capabilities converge with desktop tools to conduct detailed environmental simulations and visualize results. Ability to gain better insight into building performance earlier in the process, helping to achieve more sustainable designs, faster time to market, and lower project costs

Work naturally, design freely, deliver efficiently within a single environment
Modules as follow:

• Introduction to BIM

• Creating the Analysis Model

• Simulating the Environment (weather)

• Analyzing the Model :shadow, shading, solar, lighting, thermal

SPEAKERS PROFILE

Ho Chow Jin

Principal Consultant

Professional and Government Standards

A Principal Consultant at Autodesk, Chow Jin is responsible for developing relationships and strategic initiatives with local government and professional bodies in the ASEAN region. Some of these initiatives include the BIM Initiatives and Green Mark standard in Singapore. His current charter is driving Building Information Modeling (BIM) and sustainable design.

Having been with Autodesk for more than 10 years, Chow Jin has taken on many roles. Most recently, he was Senior Business Development Manager, Architectural, Engineering and Construction Industry, ASEAN. He was also the Team Leader for the Application Engineers team in Southeast Asia.

A Civil Engineer (Land Surveying) by profession, Chow Jin had worked as a Land Surveyor for two years where he worked on survey and construction projects, which included Mass Rapid Transit stations, rail construction and airport infrastructures. He spent 5 years in the development of Geographical Information System (GIS) and 3 years R&D on Concurrent Engineering in the AEC space. He spent 12 years in the areas of AEC IT technology from Electronic 2D submission, 3D electronic plan check research and Building Information Modeling and Sustainable design.

He is currently a 2nd Secretary of building SMART (formerly IAI) Singapore Chapter and has represented Autodesk in the IFC 2x2 and 2x3 certification of Autodesk Revit Architecture software.

Naveen Bhat

Application Engineer

Naveen Bhat is the Solutions Engineer for AEC, Autodesk Asia Pacific. Autodesk, the world's leading design software company, serves industries where design is critical to success - building, manufacturing, infrastructure, and digital media. Autodesk provides solutions for sustainable design, digital prototyping, and the creation of visual media.

Naveen is responsible for solutioning and implementing Autodesk's Building Information Modeling (BIM) Solutions. He has helped Architects and Engineers successfully implement BIM Solutions across South East Asia. Prior to his current role Naveen has worked in the AEC Industry in India on Designing and Managing various Building Projects.

Naveen holds a Bachelors degree in Architectural Engineering from National Institute of Technology, India and also holds a Masters degree in Construction Management from NICMAR, India.
