CIJC Member	
Non-Member	S\$ 45.00

Registration on First-Come-First-Serve Basis

BOA-SIA CPD Accreditation **2 CPD Points**

SYNOPSIS

As the title suggests, good design with the usage of appropriate/ special coating finish produces unlimited architectural possibilities. This seminar is intended to provide Architects and Designers with an in depth in sight regarding the usage of special coatings for both outdoor and indoor applications. The Architects and Designers will then be able to explore their creativity and imagination by incorporating the coatings into their design to provide unique or customized finishes to their Clients.

The flexibility is that these finishes can be coated on metal, aluminium, boards, timber etc. The entire process is done in the factory in a controlled environment to ensure quality control. Typical applications are external cladding, internal cladding, feature walls, doors, railings, cabinets, table tops and ceiling panels.
