BOA Registered Architects/	S\$ 35.00
CIJC Member	
Non-Member	S\$ 45.00

Registration on First-Come-First-Serve Basis
BOA-SIA CPD Accreditation **3 points**

SYNOPSIS

- What architectural trends may cause increases in pest infestations and how to ameliorate this problem – roof gardens, water features, centre open courtyard, “resort-like” patio with timber decking.
- What architects can do in the designing stage to reduce future pest infestations
- What are the existing green methods and options for pest management – General pests (mosquitoes, common ants and cockroaches) & Subterranean Termites
- Why green methods are better than conventional methods in preserving designs: efficacy, green mark etc
- How to compare between the different subterranean termite products in the market – Exterra vs. Sentricon vs. Xterm vs Termimesh
- How to get what **you** want in your tender specs – Specifying your requirements for pest managers
- How you can manage pests at each stage – Pre-Construction, During Construction & Post-construction

The Greener Solution to Termite Problems

SPEAKERS PROFILE

Mr Carl Baptista

Mr Carl Baptista, is the Director of ORIGIN's Research and Development team. He joined ORIGIN in 1999 and is the Head of our Quality Assurance/ Research and Development Department.

As a Director of ORIGIN Exterminators, Carl has a wealth of experience in the field of Pest Management, both applied and theory. He graduated from Kings College London with a BSc (Hons) in Biotechnology and is also an Internationally Certified Arborist (ICA) with specialized knowledge in tree protection against pests.

Under Carl's stewardship, ORIGIN was awarded an Innovation For Environmental Sustainability (IES) Grant from the National Environment Agency (NEA). Carl was appointed the Conference Chairman for the International Conference on Urban Pests in 2005. He is a regular face at institutions of higher learning such as National University of Singapore, SHATEC and Federation of Asian & Oceania Pest Management Associations (FOAPMA) where he regularly conducts talks and lectures on environmental management.

Carl has had a number of articles and papers published relating to pest management and more specifically Urban Entomology. He was also invited by NEA and ITE to sit on the Pest Management Technical Committee to help draw up plans for proposed training specifications, Test Plans and Institutional Norms for the Pest Management Industry in Singapore.

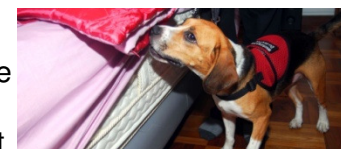

Carl's responsibilities at ORIGIN include providing consultancy services for government agencies and commercial groups such as resorts and food manufacturers, in Singapore and around the world.

WHAT ARE YOUR PEST ISSUES?

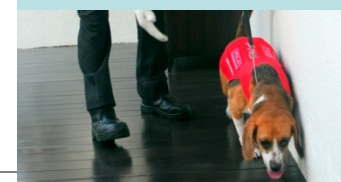

Let ORIGIN offer our professional consultative opinion backed by over 35 years of experience, to help you deal with YOUR pest issues in a more eco and budget friendly way!

Send us your questions now so we can consult on these issues during the seminar
