BOA Registered Architects/ CIJC Member	S\$ 35.00
Non-Member	S\$ 45.00

Registration on First-Come-First-Serve Basis
 BOA-SIA CPD Accreditation **2 points**

SYNOPSIS

Colours as we all know brighten up many aspects of our life and the surroundings around us. The colours on our buildings especially on our steel roofs are an interesting element as the composition and the formula of paint has to be the right mix for long lasting performance. It is more than just a layer of paint on the roof for the aesthetics of the building as it serves as a protective shield as well.

It is fundamental to understand the formulation of the respective paint system and how it has been derived with much science to protect our roofs. The accuracy of information regarding to such composition is critical as differentiation and specialization whereby not all paint systems on your roof are similar.

The continual improvement of technology has also brought about paint systems to play a vital role contributing towards being environmental friendly as well. In the seminar series, the following aspects will be covered in detail as below;

1. What is Paint?
 - a. Paint making process
 - b. Decorative paint system
 - c. Coil extrusion paint system
2. Science Behind Paint
 - a. Technology involved in composition
 - b. Paint performance
 - c. How warranty is being derived

SPEAKERS PROFILE

Richard Kopinski

Richard Kopinski currently holds the position of Technical Manager, Coil Coatings for AkzoNobel in Asia Pacific. He is responsible for New product and process development, Technical Service and Service Life predictions for the Asia Pacific Region covering the Middle East, South Asia, North Asia, S.E.Asia and Australasia.

Richard Kopinski has been involved with the Surface Coatings Industry for over 30 years, with much of his time spent developing new coil coatings for BlueScope Steel. This has taken Richard all over the globe in the search for new trends and technology.

Richard is a member of the Global Technical Executive for AkzoNobel and actively involved in the global technology portfolio and is passionate about shaping the industry direction.
