SPEAKERS & SYNOPSIS

CPD PROGRAMME

SINGAPORE INSTITUTE OF ARCHITECTS

2011/040/MS/JT

Synopsis:

DETERMINE THE NEED OF M&S SYSTEMS IN BUILDINGS

With the release of the circular from FSSD in Jan 2010, a clearer delineation of responsibility between the two disciplines -- the RIs (Arch) and RIs (M&E) has been defined. Among other things, determination of the need of M&E system, such as provision of sprinkler protection system, smoke purging system vis-à-vis engineering smoke control, two way vise / one way communication system, lies on QP architect. And whether or not the M&E systems are provided on site is to be checked and confirmed by RI(Arch). Full understanding of the provision requirement of M&E system is therefore important.

Mdm Eng liaised with many M&E engineers in her years of experience and would like to share with all on how to determine the need of each M&E systems.
