Registration on First-Come-First-Serve Basis
 BOA-SIA CPD Accreditation **4 points**

SYNOPSIS

Advanced mortar solution is dedicated in providing custom prepacked mortar and adhesives, to enable plastering and tiling works to complete in a timely and cost efficient manner.

The seminar starts with an Introduction of Holcim, then the discussion moves to a screedless tile adhesive system, a solution that allow application of tiling work, to complete without the traditional screeding system, resulting in time and cost savings.

Moving on, we will introduce spray plastering solutions that results in tremendous cost and time savings compare to traditional methods.

Innovative green architectural wood is an innovative and high quality eco-friendly wood replacement product that is produced through the implementation of green technology from Switzerland. It is a perfect substitute for the wood usage for home and building projects in different applications. It is as beautiful as a real wood, cost and time saving, termite free, saw-able, easy to be installed, 100% asbestos free, fire and weather resistant.

SPEAKERS PROFILE

Dr Sujit Ghosh

Dr. Sujit Ghosh built upon his basic Civil Engineering Degree educational background with a Master's Degree in Structural Engineering and a Doctorate in Civil Engineering Materials, both from Canada. He once joined the faculty of Civil Engineering and Material Sciences Department at the National University of Singapore, specializing in High Performance Civil Engineering Materials area before coming out to work for the building materials industry and spending more than 15 years in consulting, business development, technical supervisory, product development and general management roles in various multi-national companies in Singapore, India, Australia, Indonesia and the Asia-Pacific region.

His passion and personal interests in Sustainable Construction led him to be involved in Singapore Government's Sustainable Construction Steering Committee and he has lead the company to be the fore-front of innovation and value-added solutions development that has won him and the Singapore Group company several accolades, recognition and awards particularly related to the environment, resource recovery and re-use.

Ms. Tan Pei Yih

Tan Pei Yih is the Technical Manager for Holcim (Singapore) Pte. Ltd., Drymix Division. She has more than 10 years experience with Drymix products and their applications. She is also currently in charge of product development in Holcim (S) – Drymix.

Mr. Christopher Lee

Christopher Lee is the Sales and Marketing Manager with Holcim Singapore's Drymix Division, overseeing the Sales and Marketing department. He joined Holcim in 2008 and prior to that he has held various Sales and Marketing, Technical positions in Industrial/Construction Goods Industry.
