SIA/BCAA/AUTODESK

jointly presents

Get ready for mandatory BCA BIM e-submission

PROGRAM

1.30pm	Registration
2.00pm	BCA BIM e-submission requirement for Architecture – Ms Soon Lay Kuan, BCA
2.30pm	Move from CAD to BIM – Mr Vincent Cheong, IMAGINiT Technologies
4.00pm	Break
4.15pm	BIM for Buildability Score – Mr Ben Thum, SIACAD
5.15pm	Questions and Answers
5.30pm	End

** Maximum 50 pax In-Take on First-Come-First-Serve basis for this hands-on workshop.
*This is a repeated Workshop Session on 20 April 2012. If you have attended the earlier Workshop Session, please do not register.

SPEAKER

Soon Lay Kuan has the experience in training and guiding both the architecture firms and institutes of higher learning in their BIM adoption journey. She is also spearheading the project in BCA to help the industry to transit from 2D CAD to 3D BIM e-submission for regulatory approval through CORENET. Lay Kuan is currently the Assistant Director of the Centre for Construction IT.

Vincent Cheong, Vincent has a good diverse of experiences from residential air-con unit design to construction planning and coordination as well as a good IT background. By having the industrial knowledge from design to production and maintenance, Vincent is aware of the issues that our clients face and able to advise them on how to become more efficient and remain competitive while using the appropriate application.

His proven IT background with expertise in modeling and analysis technologies and his ability to converse and share his knowledge with others makes him a valued instructor and trusted partner to our clients during the specification, implementation, training and support phases of technology adoption.

Last but not least, Vincent is highly creative and adaptive that allows him to integrate himself to any challenging situations and provide satisfactory options required.

Ben Thum is the self-titled Innovation Director of SIACAD Pte Ltd, a commercial arm of the Singapore Institute of Architects. He graduated as an architect from University Technology Malaysia. After practising for 5 years, he decided to pursue his passion for software development. He spent 15 years in software development, experimenting with various aspects of IT ranging from assembly code programming to non-linear digital video editing.

Besides hardcore programming, Ben is actively involved in training which he believes is an excellent source for ideas and inspiration. When time permits, he will head off to his eco-sustainable hut an hour away from Singapore. Away from the grid and powered by solar energy, he finds the rural environment more conducive for working on new algorithms for the next big software upgrade or experimenting with new ways of growing food and raising livestock.

Registration Form

Participant Detail

Name of Participant: _____
(as per NRIC / FIN)

NRIC / FIN #: _____

Organization: _____

Designation: _____

Address: _____ S ( )

Tel: _____

Fax: _____

Email: _____

HP: _____

Pls indicate: SIA M'ship #: _____

BOA #: _____ (if any)

**All the above fields are mandatory. Incomplete Registration Form will not be processed. **

Contact Person Detail *(if different from participant)*

Contact Person: _____

Designation: _____
