

SIA PRACTICE CONVENTION 2013

Leadership In Architectural Practice

The Practice Convention 2013 is scheduled on Friday, 1st March 2013, at Furama Riverfront Hotel. The theme for this year Convention is '**Leadership in Architectural Practice**'. This theme is a prelude to SIA celebrating our 50th Anniversary next year.

The practice of architecture is currently at a cross-road where forces of development for unsustainable financial gain have, in many instances, become our masters. Design is also changing from visions and creations of individual genius, to multi-disciplinary groups designing multi-functional inventions, evolved from and for diverse groups of users. Architects in 2013 need to be a new type of leader who recognises the power of knowledge and collaboration, while guided by the ethics of environmental and social stewardship. The theme 'Leadership in Architectural Practice' has been selected to encourage us to delve deep into our inventive spirit in order to re-evaluate, re-think, re-direct and re-energise our profession.

As in previous conventions, we have a comprehensive list of topics, led by SIA, our collaborating partners and esteemed members that discuss different aspects of practise with specific focus on the leadership. These are lessons and initiatives that will drive our industry for the next 50 years.
