

SIA Professional Knowledge Series: DRYWALL TECHNOLOGIES FOR EXTERIOR WALLS & WET ROOMS

It is certain that bricks & blocks and precast concrete elements are the first building materials that pop in one's mind when exterior walls and façades are considered, since these are the products which have been used for centuries and still being used all over the Globe.

However, the recent trends, designs and high requirements in construction industry make it very difficult to consider these traditional building materials for exterior wall constructions.

Lightweight materials perform numerous advantages over these kinds of traditional building materials, especially when high rise buildings, steel structures are taken into account.

In this seminar, the event speakers, who are well experienced with lightweight building materials and drywall applications, will underline the advantages of dry-walling technologies for exterior wall and wet room applications and try to emphasise the superior advantages of "inorganic cement boards" for this use.

**Serdar Kutlu – Knauf USG Systems GmbH Co & KG
Mining Engineer, MBA**

Serdar is working for Knauf USG Systems as the Regional Manager for Near East, Asia and Pacific regions. He is supporting the companies' key partners and customers and managing co-workers in these regions to develop the business of Knauf USG Systems' cement board products and systems, under the brand name AQUAPANEL®. He has been working for the company for almost 7 years and specialised in drywall technologies for exterior walls and wet rooms.

Knauf USG Systems is a German based joint venture between Knauf (Germany) and USG (the USA), two leading and well-established suppliers of interior and exterior systems and building materials.

As the leading manufacturer of cement board in Europe for over 10 years, Knauf USG Systems is dedicated to developing innovative building materials and drywall solutions. AQUAPANEL® Cement Board is now being used in interior, exterior and floor applications across the Globe and is the cement board of choice for construction professionals.

**Ingo Lehnardt – Knauf USG Systems GmbH Co & KG
Civil Engineer, Industrial Engineer (Dipl.-Wirt.-Ing.)**

Ingo is working for Knauf USG Systems as the Manager International Technical Support. He and his team supports the companies' key partners and customers and managing co-workers world-wide in technical issues to develop the business of Knauf USG Systems' cement board products and systems, under the brand name AQUAPANEL®. He has been working for the company for 4 years and is specialised in drywall technologies for exterior walls and wet room solutions. Ingo is part of the Knauf Dry Exterior Wall competence centre.
