

SIA Professional Knowledge Series: Indoor Comfort and Sustainable, Green Environment for Living Spaces

Gyproc plasterboards has been effective and versatile in delivering drywall and ceiling systems that are fast track and aesthetic meeting the requirement of BCA requirement in productivity. By changing and adapting Gyproc systems into building work programs, construction can yield substantial time savings and reduction in building superstructure and substructure costs.

As the standard of living in Singapore has improved and there is increasing awareness of the importance of having clean indoor environments, Gyproc creates the ACTIV' Air that enables removal of indoor air pollutants particularly Formaldehyde thus renew and improve the indoor air quality (IAQ) of living space of home and workplaces.

Gyproc provides acoustic solution in rain noise insulation and reverberation correction that will in return enhances comfortable living, better speech intelligibility and most importantly creates an effective and productive learning environment.

Combining all elements above, Gyproc provides total solutions that is sustainable, green and healthy living to the current needs and generations of the future.

Mr Wong Choon Hoh, Technical Support Manager, Saint-Gobain Construction Products (Malaysia) Sdn. Bhd.

Mr. Wong Choon Hoh has 7 years of experience in drywall and ceiling industry.

He is responsible in managing the technical support teams of Malaysia, Singapore and Indonesia, particularly in performance driven solutions, in line with the ever growing sustainable developments for the future.

Mr. Wong is actively involved in Gyproc new product developments (NPD) in leading innovation projects for creative solutions for Malaysia, Singapore and Indonesia.

His role as the technical trainer for Gyproc ensures effective technology transfer by being part of the Global and Asia Pacific Forum under the Saint-Gobain Group by providing sustainable and specific solutions to consultants and systematic training and development of contractors.

Prior to the above, he is involved in turnkey projects of sewage treatment plants (STP) in overall design, implementation, testing and commissioning.

Mr. Wong has B. Engineering in Civil Engineering.
