

ACHIEVING MORE WITH LESS

NEW APPROACHES TO PRACTICE

While SIA celebrates our 50 Anniversary of success, we remain concerned about the changing demands of the future. End 2013 has been about softening of property markets, new focus in building for the new socially responsive Singapore, labour and skilled staff crunch. How do we be nimble yet retain depth in design and project delivery?

How do we achieve more with less?

Practice Convention 2014 unveils a few initiatives in the making by SIA and our partners in the industry. Be updated on the latest regulations and how we navigated them with BP Checklists, be amazed by the new SIA IDOL digital object library and new 3D approaches to design and pre-fabrication, be confident in administering the new SIA Form of Contract, be aware of how SIA Academy's innovative courses close the gap between knowledge and practice, and strategic implementation of Design for Safety during the crucial handover stage.
