

Professional Kitchen Planning & Design

Synopsis

1. Benefits of modular and industrially manufactured kitchens
2. Climatic challenges for kitchen furniture in Singapore, materials to be used and installation rules
3. Space requirements for fully equipped kitchens and restrictions of appliances
4. Latest mechanisms, accessories and materials
5. Electrification challenges
6. Implications of materials for room air hygiene

Speaker

Mr Daniel Magg

General Manager of W. Atelier Kitchen Division

Hailing from Lake of Constance, Germany, Daniel Magg has more than 12 years of experience in the sphere of contemporary, high-end kitchens. Graduated with a Masters in Economics, Daniel chose to delve into kitchens and design work to fuel his passion in this field. Daniel's experience therefore comprises various key appointments with established German kitchen appliance brands and large European kitchen retailers.

In 2010, Daniel took up the challenge of developing the new and exciting concept of contemporary modular kitchens in the fast-changing and dynamic South-East Asia and with the aim of creating more awareness of the advantages of European-style modular kitchen.

"There are four dimensions to every kitchen – Beauty, Functionality, Ergonomics and Individualism. We must take these and merge them to create and maximise the most desirable results for the customers. As a proud owner, you need to create a kitchen that works hard for you, and not the other way round. Hence, the kitchen at home becomes an extension of you, exuding your taste and unique personality; and also a wonderful welcome to your guests."
