

# SIA Business Talk by Mr Eugene Khoo: Port Strategy – Development of a Next Generation Port

**MR EUGENE KHOO**  
**Project Director**  
**Maritime and Port Authority of Singapore (MPA)**

## Speaker

Since graduation from the National University of Singapore with a Bachelor of Engineering in 1989, Mr Eugene Khoo has worked on the planning, design and project management for the development of Pasir Panjang Terminal Phases 1 to 4. Currently, he is the Project Director for the Next Generation Port Project Office overseeing project management of the development of master plans for the port of Singapore and Maritime Hub at Tuas and the development of new port systems for the next generation port. He holds a Master of Engineering degree and a Master of Business Administration degree from the National University of Singapore.

## Synopsis

The global maritime business environment and regulatory compliance of today and future developments around the world are challenges facing the ports around the world. Major hub ports and international maritime centres will have to venture beyond off-the-shelf solutions and systems to stay ahead of the competition.

The Port of Singapore will have to enhance its position as a reliable, efficient and trusted hub. To do so, Singapore's next generation port will need to harness smarter technologies, drive operational excellence, maximise productivity gains, pursue world class safety and build up infrastructures to achieve better integration of the new mega container terminal with the Maritime Hub of the future at Tuas.
