

Building the Future with 3D Printing

Jointly Organized by:

SIA Professional Knowledge Series: Building the Future with 3D Printing

Regardless of whether it is intricate panels, thin walls and unorthodox building structures, watch your ideas come to life in the exact manner as envisioned through the use of 3D Technologies.

On June 10th, uncover a world of 3D Printing possibilities that will revolutionize your workflow while simultaneously achieving the accuracy and complexity required for your architectural models. Jointly organized by SIA (Singapore Institute of Architects), Creatz3D and Materialise, the seminar will take place from 3pm to 5pm at SIA Theatre, 79B Neil Road and we would like to invite you to attend. Through this joint seminar, you can learn more about:

- *How 3D Printing is being adopted in the Architecture Industry*
- *Different types of 3D Printing technologies*
- *Benefits of each 3D Printing Technology*
- *How to optimize your 3D Printed Architecture models using Materialise Magics and how it was deployed in the process, eg. Fixing, Shrinkwrap, texturing, rescale, thickness analysis, and many more*
- *Creating customized facades to cater to your Architectural needs*
- *How to fabricate and utilize customized tools with 3D Printing Technology*

As seats are on a first come, first serve basis, be sure not to miss out on this amazing learning opportunity and register today! We look forward to seeing you there
