

SIA Professional Knowledge Series: Designing Sustainable Façades to Green Mark 2015

Green Mark Scheme was launched by the Building and Construction Authority (BCA) in 2005 which guides the design, construction and operation of buildings towards increased energy effectiveness and enhanced environmental performance. A sustainable façade design is not only part of the pre-requisite requirements but also contributes to criteria like the climatic responsive design and resource stewardship.

In this seminar, the speakers will talk about:

- ✓ What is a Green Façade: the broad design parameters for achieving a green façade.
- ✓ Designing Façades to Green Mark 2015 design requirements, more particularly, the differences with the older versions of Green Mark.
- ✓ The Future of Green Façades: Areas of R&D that could turn into the future systems and materials used in green façades.
- ✓ Sustainable products in façade construction: Environmental Product Declarations that may be the future in determining environmentally friendly products used

Mr. Mathieu Meur
Managing Director
Meinhardt Façade Technology Pte Ltd

Mathieu provides the strategic leadership as the Managing Director for Meinhardt Group's global façade consultancy business. Mathieu has worked on numerous major construction projects in Asia, the Middle East and beyond including Resorts World at Sentosa, a US\$5b integrated resort

development, and The Dubai Mall, currently the largest mall in the world. Through his training as a multi-disciplinary engineer and subsequent years of experience at Meinhardt Façade Technology, Mathieu has developed extensive knowledge of all types of building envelope systems, their design, engineering and related codes of practice.

Mathieu is currently the Chairman of the Cladding & Roofing Taskforce at the Singapore Green Building Council since 2012 and has been a speaker at several industry seminars since 2007. He has also been the author of several articles in magazines like Window & Façade Magazine and Singapore Architect.

Mr. Kelly Chua
Head of Engineering MCC EC
Hilti Far East Pte Ltd

Kelly is the current Head of Engineering for the Southeast Asian offices of Hilti and has been leading the engineering team in Singapore since 2009. He leads a team of engineers who work with architects and engineers in the design of structural anchor connections and firestop

solutions in the construction industry. Through his years in Hilti, he has developed extensive knowledge in the design of curtain wall connections and the approvals of anchoring and firestop products used in a building envelope application.

Kelly has a Bachelor's degree in Civil and Structural Engineering and has been working in the construction industry for the last 15 years.
