

# SIA Professional Knowledge Series: Playground Learning Academy

*Playgrounds are a place for play and learning—where kids develop physical and cognitive skills and build social relationships. However, not all playgrounds are welcoming to people of varying abilities. This Learning Academy session provides participants with an overview of the changing population of children on the playground, and how to create playground designs that meet their unique needs.*

*Parks today also face the challenge of providing environments that will attract children and families to engage, play and stay. To compete with indoor, more sedentary activities, we will examine playground trends that create kid magnets, facilitate multigenerational interaction and signature playgrounds that tell a community story.*

*This session will also provide participants tips for creating playground designs to get and keep kids active, and help them make a positive and healthy impact on their community.*

## **Mr David Smith**

David F. Smith serves as Vice President of Sales at Landscape Structures, Inc. He brings more than 25 years of experience in the recreation field, and offers a unique perspective on health, fitness and children's play on the playground. Since 1992, David has cultivated societal and industry trends to help create solutions that address evolving recreation needs.

*Landscape Structures pioneered initiatives that focus on playground accessibility and inclusiveness, health and fitness and environmental sustainability. Landscape Structures goal is to shape as many lives through play as possible."*

## **Mr Tory Roff**

Tory has been with Landscape Structures since 2006, using his background in fine arts to bring an incredible sense of creativity and thoughtfulness to the custom playgrounds he designs. Most of his inspiration comes from listening to his clients' ideas and needs and working hand-in-hand with them through the final outcome. For Tory, the key to creating iconic play areas and gathering spaces stems from a simple question, "Would I be excited to play on this playground?"

## EVENT DETAILS
