

## Seminar Information

The Paint Standards Exchange launches the new SS 678:2021 *Specification on solar reflective water-based coatings* and showcase the revised SS 150:2021 *Specification for emulsion paint for decorative purposes*.

This seminar provides insights on the amended scope of SS 150 to cover only emulsion paint for interior use on walls and ceilings. The new SS 678 aims to support sustainability and maintain our green environment, which is in line with global trend. Learn about the benefits of using these paint standards and how end users have implemented these in their course of work.

Other paints relating standards will also be covered during the seminar.

## Who should attend

Users of paint standards which may include paint manufacturer, test laboratories, suppliers, architects, managing agents and contractors.

## How to register

To register, interested participants will need to purchase a copy of either SS 150:2021 or SS 678:2021 (at a 20% discounted price of \$19.22 (incl. GST) each) from Toppan Leefung Pte Ltd (click [here](#) for SS 150:2021 and [here](#) for SS 678:2021 or via the QR codes below:

SS 150:2021  
Specification for emulsion  
paint for decorative purposes

SS 678:2021  
Specification for solar reflective water-based  
coatings

Upon your successful purchase of SS 150:2021 or SS 678:2021, the link for registration for the event would be sent to you. For each purchase of the standard, the organisation can send one representative to attend the physical event.

If you have any enquiries on the purchase of standards, please contact Mr Rahman Daud from Toppan Leefung Pte Ltd at [rahmandaud@toppanleefung.com](mailto:rahmandaud@toppanleefung.com).

Please note that seats are limited and would be on a first-come-first-serve basis.

**Registration deadline: 10 August 2022**

More information on the event can be found at <http://scic.sg/sdosic/> -> Events
