

CXO In Conversation

Building Resilience and Emerging Stronger
in the Construction Sector

Guest of Honour

MR TAN KIAT HOW

Minister of State
Ministry of Communications and
Information & Ministry of National
Development

29
NOV 2021

Time | **10:30 AM - 12:00 PM**
Venue | **Webinar**

Who Should Attend

C-suite professionals and senior management from the build environment and construction sector

The resilience of Singapore's economy was put to test last year when the pandemic exposed the underlying vulnerabilities in our build environment and construction sector. To build greater resilience, this will require the integration of digital solutions with organisational changes. Digital transformation is key for the entire sector to emerge on a stronger footing post-COVID-19 and it is critical for our companies to act fast.

In our next CXO in Conversation edition, we invite our Guest of Honour **Mr Tan Kiat How, Minister of State, Ministry of Communications and Information & Ministry of National Development**, and our panel of industry leaders to address challenges faced during transformation, focus on the frameworks of success stories and provide key insights to build our construction sector back with a stronger foundation.

Key takeaways from the session:

- How to support SMEs in the new remote work environment with cloud-based collaboration tools
- Examine success stories to guide SMEs in advancing their transformation journeys
- Provide SMEs with actionable frameworks to build resilience during the pandemic and future-proof their businesses
